**Policy Statement:**

I have served The AHBPA as board member, Vice President and current President of the AHBPA over the past several years. I would like to thank all of you for allowing me to serve as your President for the last three years. My pledge to you has always been to be active and a contributing member of the AZ HBPA. I will continue to work for the betterment of horseracing and fellow horsemen in the state of Arizona. I will oversee and manage the duties of the office with a hands-on-management style to direct the daily operations.

I will continue work with management for the betterment of horse racing at Turf Paradise, Rillito and county fairs. I will continue working closely with our legislative lobbyist, Bas Aja, to project Arizona racing issues and interest, for all horsemen large or small. I will continue to work with the racing division of Gaming to keep a voice for horsemen in regulatory matters.

I feel the next 18 months will be even more critical for the future of our industry. Our time is now for the push to obtain alternative gaming/revenue sources for horseracing. This is a bridge we have been building the last few years. With my past experience and knowledge of our current situation and with your vote and support, working together I believe we will meet the challenges vital to our very existence with hard work and dedication we will be prepared to do battle for our members with management and State government on behalf of our industry. This is my pledge to you!

This election is more critical than ever. So please make you vote count. This is no time for "On the Job Training" we need an experienced and dedicated board willing to work for all horsemen and horsewomen. There is a lot more to this job then putting out everyday fires.

So again, I am asking for you vote. I remain at your service with you in mind and your support.
